QUICK INSTRUCTION GUIDE TO INTEGRATING POWERCODE WITH RNCONTROL
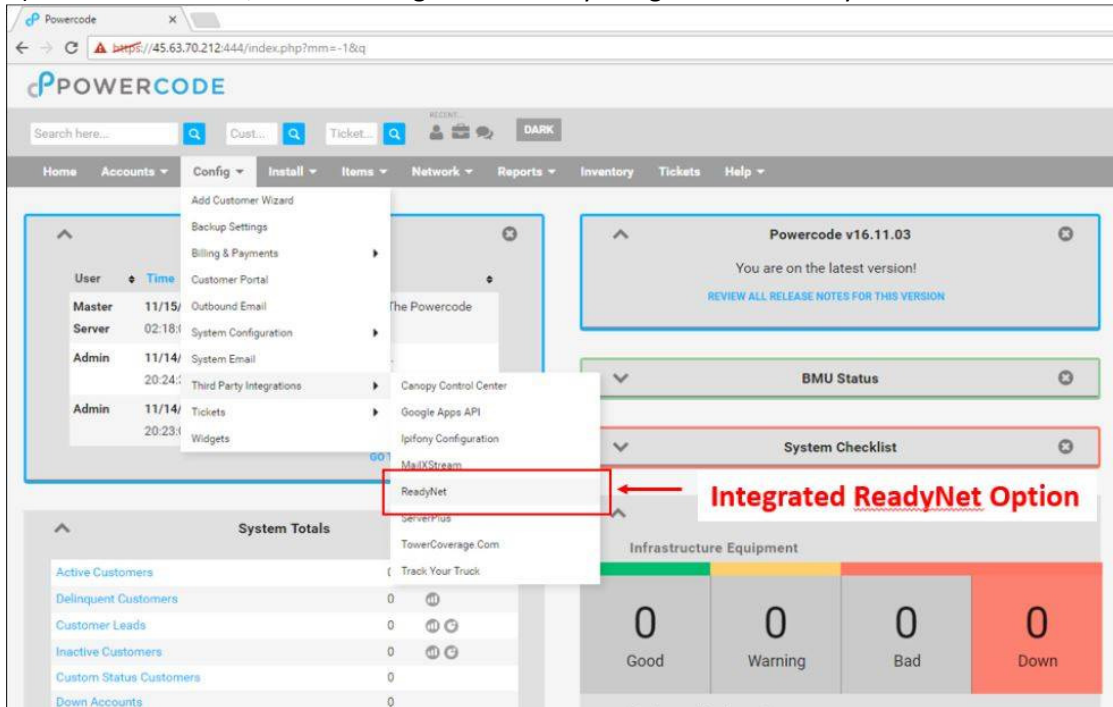

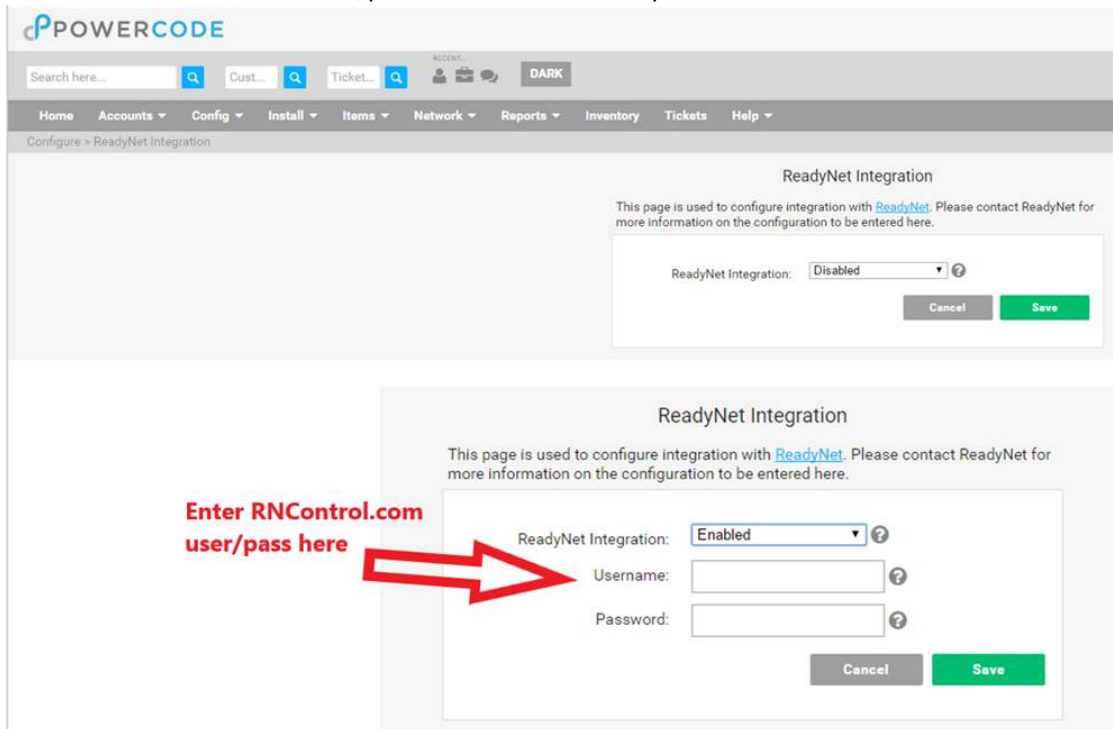

1) You must be running at least **POWERCODE** version v16.11.03.

2) Create an RNControl.com account at https://rncontrol.com

3) In **POWERCODE**, select "Config -> Third Party Integrations -> ReadyNet":

4) Enter the RNControl username/password created in step 2 into **POWERCODE**:

5) Add devices into your RNControl.com account.

6) Where MAC Addresses for devices in **POWERCODE** match MAC Addresses for devices in RNControl, the 'ReadyNet tab' will automatically be displayed.
